All of the merchandise in a given inventory category shall be physically placed so as to be segregated from merchandise under other inventory categories or merchandise accounted for under other inventory methods. The unique identifier shall be marked on the merchandise, its container, or the location where it is stored so as to clearly show the inventory category of each article under FIFO procedures. Merchandise covered by a given unique identifier may be stored in multiple locations within the warehouse if the proprietor's inventory control system specifically identifies all locations where merchandise for a specific unique identifier is stored and the quantity in each location. The proprietor must provide, upon request by a Customs officer, a record balance of goods, specifying the quantity in each storage location, covered by any warehouse entry, general order, seizure, or unique identifier so a physical count can be made to verify the accuracy of the record balance.

(iii) *Other alternative inventory methods.* Other alternative inventory systems may be used, if Customs approval is obtained. Importers or proprietors who wish to use an alternative inventory method other than FIFO must apply to Customs Headquarters, Office of Regulations and Rulings, for approval.

(9) *Miscellaneous responsibilities.* The proprietor is responsible for complying with requirements for transport to his warehouse, deposit, manipulation, manufacture, destruction, shortage or overage, inventory control and record-keeping systems, and other requirements as specified in this part.
